

POLAMK – CREATING FUTURE SECURITY

We produce knowledge and expertise for expert and leadership tasks in internal security and for the development of societal security. We build the foundation for the professionalism of the Finnish Police. We are a distinguished, top-level international university college in the security sector.

THIS IS HOW WE REACH OUR GOALS

Forward-looking approach

- We survey, evaluate and predict the status and changes in the operational environment.
- We develop technologies and versatile learning environments.

A competent university college community

- We encourage continuous learning and a working approach based on experiment.
- We ensure the Police University College's appeal as a place for study and work.
- We utilize information collected through feedback and evaluation.

Strong partnerships

- We promote solid cooperation between working life and higher education.
- We support the mobility of students and staff.

Social responsibility

- Our education and research cooperation are multilateral.
- Our approach is ethical, and we follow the principles of sustainability.

THIS IS HOW WE WORK

FAIRNESS

Our approach is equal, and we respect each other. We educate ethical professionals.

PROFESSIONALISM

We promote the continuous development of expertise and personal work contribution. Multi-professionalism is our core strength.

CUSTOMER SERVICE

We recognize our customers' needs and accomplish effective research and education. We support the entire police organization.

STAFF WELFARE

We are accountable for the welfare of ourselves and each other. Together we strengthen a positive and interactive university college community.
